

Online Projects 2008

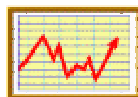

Earth and Beyond

- Pre - Yr 8

Beyond Earth- Our Solar System is an internet based project for elementary age students to explore our night sky and the solar system. This project will give students a chance to explore beyond Earth and learn about the world beyond their world.

Navigational Vectors

- Yr 10 - Yr 12

You may be able to navigate the roads, but can you navigate the skies? There are no signs to point you in the right direction. How do pilots find their way? Learn the principles of aviation navigation in this real time data project!
